

Instructions for 'How to run your product'

Team 4: ChatChat

Zhenmu Gong, Yiting Du, Canyu Yang, Shikang Fan, Siyu Jiang

1. Software required: **Android Studio**
2. Go to
https://developer.android.com/studio?gclid=Cj0KCQjwrrXtBRCKARIsAMbU6bHRTzL2gwILwM7QVGrSDOjiSkOMp4Cc2S1S94IQA--PHQoU_ySjxNMaAnUGEALw_wcB
And download the Android Studio.
3. Open **AVD manager** under the **Tools** and select create new device. Note that our app support API 27 and above version. (we recommend API 27)
4. Once an emulator is open, drag the apk into the emulator. The app should be installed automatically.
5. Once finished, click the app in emulator to start.
